

# cells

a tiny unit of plant  
or animal life

---

# water

a clear liquid that has  
no taste or odor

---

# air

the invisible mixture of gases  
that people and animals breathe

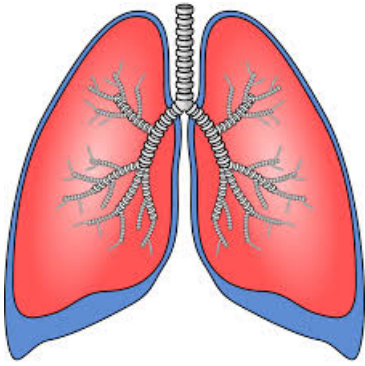

---

# breathe

to move air into and out  
of your lungs

---

# lungs

the part of the body that  
people and animals use to  
breathe air

---

# sunlight

the light of the sun

---

# food

the things that people  
and animals eat

---

# energy

the power to do things

---

# community

a place where people live

---

# home

the place where a person lives

---

# clothes

things worn on the body, such as pants, shirts and dresses

---

I need:

water, air, sunlight, food,  
community, home and clothes

---
