Erosion- Prompt #2

Give a step by step description of what causes potholes in our road.

Erosion- Prompt #2

Give a step by step description of what causes potholes in our road.

Erosion- Prompt #2

Give a step by step description of what causes potholes in our road.

Erosion- Prompt #2

Give a step by step description of what causes potholes in our road.

Erosion- Prompt #2

Give a step by step description of what causes potholes in our road.

Erosion- Prompt #2

Give a step by step description of what causes potholes in our road.

How does wind erode the earth's surface and how can we prevent it?

---

How does wind erode the earth's surface and how can we prevent it?

---

How does wind erode the earth's surface and how can we prevent it?

---

How does wind erode the earth's surface and how can we prevent it?

---

How does wind erode the earth's surface and how can we prevent it?

---

How does wind erode the earth's surface and how can we prevent it?

Erosion- Prompt #4

Illustrate, label, and write about your observations of the science experiment on soil erosion.

---

Erosion- Prompt #4

Illustrate, label, and write about your observations of the science experiment on soil erosion.

---

Erosion- Prompt #4

Illustrate, label, and write about your observations of the science experiment on soil erosion.

---

Erosion- Prompt #4

Illustrate, label, and write about your observations of the science experiment on soil erosion.

---

Erosion- Prompt #4

Illustrate, label, and write about your observations of the science experiment on soil erosion.

---

Erosion- Prompt #4

Illustrate, label, and write about your observations of the science experiment on soil erosion.

Illustrate, label, and write the steps involved in the experiment idea created by you and your partner, or in the experiment conducted by you and your partner. How did you demonstrate the effects of erosion? How could you design a way to prevent this erosion?

---
